

Availability of public marketing documents in Asset Hub

September, 2015

You are now able to access public Marketing documents hosted in Concentra via the respective Hewlett Packard Enterprise and PPS Asset Hub instances, thus further consolidating access to digital marketing assets via one single interface.

These documents are in PDF format and can be searched as follows:

- Using the **Search box / Advanced Search/ Product Browse** – this will display both Concentra and Asset hub results
- Using **Advance search** and choose **Asset Category: Documents** – this will display only Concentra results. In key words the documents classified by “data sheet”, “technical white paper”, “quickspces” are only Concentra.

The screenshot shows the HP Asset Library search interface. At the top, there's a search bar with a magnifying glass icon and a dropdown menu with options: "Search assets", "Advanced Search" (highlighted with a yellow circle and a '1' in a yellow circle), "Product Browse" (with a plus icon), and "Save results in folder" (with a plus icon). Below the search bar, there's a section for "Last updated" with radio buttons for "Last Year", "Last 3 Months", and "or specify from:" followed by a date range selector and a "Reset" button. The main search area is divided into four columns: "Asset Category", "Keywords", "Document Type", and "Language". Each column has a list of items with a scroll bar. In the "Asset Category" column, "Document(17597)" is selected. In the "Keywords" column, "data sheet (5969)" is selected. In the "Document Type" column, "data sheet (5969)" is selected. In the "Language" column, "English (U.S.) (en_US) (9208)" is selected.
