Sharing assets is faster with a user-friendly PDF export

- Select and export only the assets relevant to you
- For less than 100 assets the PDF export will contain a link to download all files. Once the PDF is created, look at the bottom line, where you will find the "Download all" link.

Download All

Other changes

- Download limit for multiple assets has increased to 100!
- The "Save to folder" functionality is now available also inside folders. You can save assets from one folder to another!

Step 1. Inside the folder, click *Actions*
