# **Installation Steps**

Quick Quote Tool allows you to have offline access to pricing and to build up a quick quote of products. This looks like a website, but is an html file application that works even if you are not connected to the Internet. This tool works only with Google Chrome and Firefox browsers, this technology is not supported by Internet Explorer, so make sure you have any of those browsers installed in your PC before starting.

# 1. Download price lists to your computer for offline access

	Home	Welcome
	Start New Quote	This tool is used to create quick quotes. If you're using it for the first time you might want to take a look at the help file.
	Open Quote	Quick Start Guide
		If you want to start with a new quote, click on ok -> New Quote
		Price Lists
		If you want to look up prices you first need to load the list to your computer. Therefore click OK -> Settings -> Update Price List
		Don't show again     OK

Enter to <u>http://h71069.www7.hp.com/quote-tool/</u> and click *OK* in the pop-up window if it appears.

If this is your first time using this tool, make sure you are connected to the internet and click on the *Update Prices* button to download all the information to your PC. It will take some minutes to synchronize.
